How to Raise Funds for your Business? The Problem and the Challenge!

How to Raise Money for my Business ?

How to Raise Funds & Improve my Business ?

How to Fund my Business ?

How to Fund my Startup Company ?

Where do I get the Funds from ?

Probably these are the questions that would haunt every Business Entrepreneur, all the time. Raising Funds for the Business is the Single Biggest Challenge that any Entrepreneur would face anywhere in the world. In fact this is the biggest obstacle that aspiring Entrepreneurs are facing all over the world.

Worldwide, did you know?

- 80-85% of all Business Loan Proposals, submitted to Banks are rejected?
- 97% of all Proposals submitted to Investment Bankers are rejected?
- Only 2-3 Proposals out of every 200 are picked up by Venture capitalists?

Business people, the world over would agree that “Money” is the fuel to drive any Business. Without Money, it is impractical, to run any Business or think about it.

The Biggest problem is faced by Small & Medium Enterprise owners. It is very difficult for Small & Medium Enterprise owners to raise Funds. Sometimes, in an emergency kind of crunch situation, where funds are required immediately to tide over a Crisis or to make some adjustments, it is next to impossible to raise even a small business loan of say Rs 5.00 to 10.00 Lakhs.

Banks just do not entertain, if you do not have proper Collaterals & Income proof. Then, what are the other options that an Entrepreneur of a Small & Medium Business Enterprise have?

Unfortunately, the answer is a very frightful - “None”.

Millions of Books have been written all over the world, about every minute aspects of Financial Management. Everywhere in the world, authors have written about how to Manage Funds, How to Manage Working Capital etc. But how many of them have written about – **How to Raise Funds?**

Every Expert including the worlds leading business consulting firms talk only about “**YOUR FUNDS**” They have all brilliant ideas in how to play with “**YOUR FUNDS**” and seldom they talk about **How to Raise Funds?**

Throughout the world, only about 8-10 ways are explained in all sorts of permutations & combinations and sometimes, very vaguely too. And there are many tips & suggestions found on the Internet, which are absolutely Impractical & makes no sense. **This is one subject that is not taught anywhere in the world.**

If the entrepreneur has Bad Credit score and Bad Credit history, then it is next to impossible to raise any business loans, even if they have brilliant ideas and good products to market.

Then, Is it the end of the world for business entrepreneurs, when it comes to raising funds for their business? Is there any hope & Life beyond this? Are there any Real Alternatives? Very Few or Frightfully None! Isn't it?

Now, Don't give up and lose Hope! NBS Business Consulting is here to rescue millions of business entrepreneurs, who are looking to raise funds for their business.
